AMAZON SUP ADVENTURE

With the SUP board on the
Amazon river: A detailed one
travel report

welcome to recreation...

EDITORIAL

THOMAS CEO, Head of Design
GTSports GmbH

DEAR SUP FANS,

the time has finally come: the second edition of our magazine is ready! SUPPASSION became PUREPASSION for legal reasons, and we think so this name even more appropriate.

The second edition should also surprise you bring people and great locations closer. And it is intended to show you where you can borrow, test and buy material. Of course, fascinating and exciting travel reports and descriptions should not be missing.

This magazine still contains our current product range, such as boards, paddles and accessories. We will also introduce you to innovative new products and interesting developments.

We would also be happy if you let us know your opinion about boards, paddles, accessories, this magazine or our service. Wherever you see potential for improvement, please send us a message. We look forward to receiving your feedback!

And now we hope you enjoy reading!

Thomas, Anurag and the whole GTS team

GTSPORTS GMBH
BRAND GTS GRANDTOURSPORTS

DEALERS PARTNERS INVESTORS

[WANTED]

ARE YOU INTERESTED?

We, GTSports GmbH, would like to offer you to participate in our company. We have been active in the production and distribution of high quality SUP boards, paddles and general sports equipment since 2014. And our high quality standards guarantee that we can always offer our customers first class products.

We not only supply private and business customers, but are also the exclusive water rescue board supplier for the DLRG - Deutsche Lebens-Rettungs-Gesellschaft e.V. and for the Deutsches Rotes Kreuz (DRK).

PRESENT ALL OVER EUROPE

Through our recent restructuring and focus on the B2C area, we have become a permanent partner of DECATHLON in currently 5 European countries: Germany, the Netherlands, Belgium, Italy and Portugal. France and Spain will be added soon.

WELL THOUGHT OUT AND ESTABLISHED

Our many years of experience are of course reflected in all of our products. We are particularly proud of our patent for an innovative valve cover system with Velcro® fastener, which can be marketed even more widely in the future.

Our goal is now to sell up to 90% of our high-quality know-how, our partnerships, our customers and our established GTS grandtoursports brand.

DESIGN, CONSTRUCTION, MARKETING, SALES

With us everything comes from a single source. We are a small, innovative and experienced team whose great passion is SUP boarding, wing and wind surfing, kite surfing and surfing.

We develop products, organize the entire production process and sell them online. Our customers include: Decathlon, Zalando, DLRG, German Red Cross, PRIVATE SPORT SHOP, SAS and numerous other B2B retailers.

EXPERIENCE AND SUCCESSES

- 10 years of experience with our GTS grandtoursports brand
- 20 years of experience in product development
- Expertise in product design, marketing, cooperation, quality management, future management and online sales
- Partnership with DECATHLON
- Long-term partnership with the DLRG and DRK water rescue services
- Winner of the if Design Awards 2021 for the GTS RS Allwater SUP board
- Satisfied customers for over 10 years, Trusted Shops grade 5.0
- Patent for the "VALVE COVER" technology

You acquire a stake in GTSports GmbH in Berlin/Germany and receive as partner and joint venture partner shares in the GTS grandtoursports brand.

If you are interested or have any questions please feel free to contact us by phone on: **+49 160 - 90 386 234** or by mail: **info@grandtoursports.com**

NEW PRODUCTS 2025

NEW DESIGN, NEW MATERIALS: EXPERIENCE THE POPULAR CRUISER 11.6 IN A NEW WAY

The new generation of our popular allround board has a stand in an elegant darkwood design or in fresh shades of blue. The even more stable Transparent Black PVC is incorporated into the side surfaces. It is still particularly stable and easy to paddle. It offers enough space for health and fitness exercises and the sporty construction guarantees one excellent straight-line stability.

TOURING 12.6: NOBLE WOOD DESIGN AND OPTIMIZED FEATURES

The stable and sporty construction of the TOURING 12.6 guarantees clean straight-line stability. Ideal board for a lot of luggage and heavy paddlers. The board has now been optimized and has a new, elegant dark wood design.

SPORTSTOURER 13.0 - DYNAMIC DESIGN, SPEED AND STABILITY

The SPORTSTOURER 13.0 combines the comfort of a touring board with the dynamics of a race board. It turns every tour into a sporting experience. Elegant dark wood design combined with a newly designed, dynamic EVA base and optimized features.

THE NEW SUP PADDLE REFERENCE

The GTS NARROW PRO SPORT is a new Kevlar paddle that impresses with its light weight and extreme stiffness. The optimized blade shape promotes energy-saving and fast paddling and direct power transmission. Available in 2 parts in blade sizes 85, 90 and 100 cm².

NEW PRODUCTS 2025

S14 X 27: LOOKS FAST, AND SO IT IS!

The new S14x27 sets new standards in sporty paddling. Measuring 14ft (426.7cm) long and 27in (68.6cm) wide, it is designed for speed while remaining stable and maneuverable.

S14 X 28: SPEED AND STABILITY!

The slightly wider S14x28, measuring 14ft (426.7cm) long and 28in (71.1cm) wide, is also designed for sporty paddlers, but also offers a little more volume and tipping stability.

Trip: Amazon SUP Adventure

THE SOUND OF THE JUNGLE

RIO NEGRO AND ANAVILHANAS ARCHIPELAGO

We are immersed in the unforgettable sound of the jungle. A sound that will never leave us as nature lovers, adventurers and SUP paddlers. The beauty of the biodiversity, the breathtaking nature, in short: unique experience that we were able to experience there. We let ourselves drift, left the sounds of the city behind us and embarked on a very special journey. Of course with unique paddling tours on the Rio Negro in the Brazilian Amazon region, the largest body of water and the largest contiguous rainforest on our planet.

We learned about the life of the indigos, observed rare animals and enjoyed freshly grilled fish.

OUR SHIP

A typical Amazon River ship with simply equipped double cabins, dining room, a sundeck and a great crew. That was our home for the time.

VILA DE ACAJATUBA & COOL DRINKS

LIVE IN THE MIDDLE OF THE RAINFOREST

On the edge of the Brazilian jungle on the banks of the Rio Negro, small river communities live in harmony with nature in simple conditions.

The magic of these places and the special energy that emanates from them captivates us pulled. The friendly locals are happy about every visitor and are always hospitable.

COMUNIDADE INDIGENA

HUNTER - FISHER - COLLECTOR

We were able to experience how the indigenous population lives today according to their customs and traditions in an authentic indigenous village in the Amazon.

YOGA AND JUNGLE TREKKING

FINDING YOUR INNER BALANCE

We greeted the rising sun while doing yoga on a SUP board with the sound of tropical bird calls. And we connected with the element of water during SUP yoga and trained the deep muscles. Here you find your inner and outer balance.

RAINFOREST EXCURSION

With our experienced local guide, we explored the rainforest in a very special way. On this excursion through the impassable area, our guide showed us the diversity and sophistication of nature, exciting places and various survival techniques.

We learned about plants that help as a natural mosquito repellent or that are used as a basis for medication. We experienced the harmony between nature and animals and the importance of preserving this Amazon rainforest.

Story: With "Cancun" through Mexico

3 MONTHS, 15.000 KM

When a paramotor pilot meets a kite surfer and standup paddler and the two travel together, the result is one thing: excess baggage!!! And in order to move around and explore the country, you need a car that is not too small. „Mexico! Wasn't that the country where the T2 was still being built until 1995?" it immediately popped into our heads... and after some searching on the internet we soon found one that made our hearts beat faster. And so our new travel companion T2, known in Mexico only as a station wagon, is simply named after the city where it was purchased: Cancun.

Papers, insurance and a complete overhaul of the vehicle, which when purchased ran through every red light despite braking, were the first actions of the trip, which also improved our Spanish skills at the same time.

And after a week of bureaucracy, the time had come: music on, windows open and off we went! Viva la Mexico with a hippie feeling. Yucatan & Quintana Roo offer the

best introduction to Mexican vanlife for beginners, because you don't have to worry about safety, at least in these states. The roads are straight and well developed and there is hardly any traffic outside the cities. German and English driving licenses are valid.

We notice that the Bulli doesn't just have a fan base here, because thanks to social media, the Mexican station wagon community has also become aware of us. We get an invitation to the station wagon day in Tuxtla Gutierrez! February is National Kombi Day, a day for fans of the legendary Volkswagen bus.

We go through the city in a convoy with 40 station wagons and we are part of the community thanks to our turquoise-white "Cancun", built in '75. Afterwards there will be a celebration with a picnic and live music between the buses.

With "Cancun" we explore 7 states and travel around 15,000 km through Mexico in 3 months. Here we kite, fly and standup paddleboard in the Caribbean, in the mountains of Chiapas, on the beaches of the Pacific in Oaxaca. We end our trip in Veracruz, where "Cancun" begins its journey to Europe separately from us by ship. See you again in Bremerhaven! This is how "Cancun" comes to Germany - because traveling connects people.

AT HOME IN THE WORLD

Kathrin Borgwardt grew up on the Baltic Sea and discovered her enthusiasm for water sports at the age of 14 on an old windsurfing board. When kitesurfing emerged in 2000, she was living in Egypt as a diving instructor. Here she swapped the surf sail for the kite and from then on commuted between the worlds.

For 10 years, Kathrin Borgwardt actively took part in competitions such as the Kite Tour Asia and the Kite Tour Europe.

She was and is always on the go and her thirst for adventure is far from quenched. True to their motto "At home in the world".

Packed to the rafters with kites, SUPs, paragliders and paramotors, we often took the VW bus to the most distant destination that could be reached by land: to Tajikistan for the highest kite race in the world. Or from Prerow across Europe, Turkey and Iran to Oman. Or in the classic VW Bulli T2 across Mexico.

She has been running the Darss kite school in Prerow from May to October for 20 years now. The rest of the year the Philippines serves as a base for kiting and standup paddling.

With www.kitesurf-mindoro.com a dream came true: to create an oasis off the beaten tourist path where water sports enthusiasts from all over the world meet and find excellent conditions with secluded bays, dream beaches and many offshore islands.

Free time is used to explore new spots or try out new tours. The best ones are then shared with guests and can be booked.

In summer, the Darss kite school offers kite, wing and SUP courses for all skill levels and all ages. SUP tours such as the sunset, early riser and moon ride as well as kite downwinders are also on the program.

LOCATION FUNKHAUS

At the Stand Up Club Berlin you can take various SUP courses, guided SUP tours or even SUP yoga with trained teachers at the SUP rental locations. We also offer team events for groups as well as our popular SUP retreats in Italy and the Berlin area. You will also receive expert advice from us when it comes to buying a board and will find the right SUP board in our online SUP shop.

EVERYBODY'S WELCOME AT STAND UP CLUB BERLIN!

We are not an association or club in the sense of members. We look forward to every regular guest and to each and every one of you, regardless of whether you are a SUP beginner or an advanced stand up paddler. With a board under your feet you will get to know Berlin from a whole new perspective.

Here you can find our exact location and route planner. Just scan >

SUP FOR YOUR HEAD

I got into water sports at a surf and yoga camp in Morocco. That's when I realized that I really wanted to do something that took place on the water, that I enjoyed and where I had contact with people. Then I looked at what there was in Berlin. That wasn't much at the time.

I then came into contact with a stand up paddle manufacturer from Hawaii and that's how I entered the SUP world. That's where I got to know the first boards. In Hawaii they primarily had hardboards, and they were true works of art. Great designs that I really liked.

When I stood there on the SUP board for the first time, I was so amazed by the unity between body and board that was formed through balance. I was also fascinated by the new perspective with which one perceives and rediscovers the environment and nature. And I thought that something like that could be done wonderfully in Berlin. There is a lot of water here and a lot to see.

So I set up the Stand Up Club Berlin with my business partner. Initially very small, but mainly through word of mouth we have grown steadily with each passing year. Our length on the Spree at the Badeschiff was of course perfect. We were in the middle of Berlin and we had a great team right from the start.

From the beginning I also had the idea of getting into SUP yoga. But there was no such training in Germany at the time. So I went to Bali in 2015, did the SUP yoga training there, and was the first in Berlin to offer SUP yoga.

And that was my destiny. Watching what SUP yoga does for people, how you wind down, how you are in the here and now and have to exert your body in order to be able to let go of your mind. And everything is accompanied by the sounds of nature. Anyone who would like to experience this is very welcome. I look forward to every contact and every visit. Hope to see you. Ciao.

WATER, NATURE AND LIFE

We love water, nature and life! Stand up paddling combines this in a wonderful way. Everything we do is done out of pure passion and you will feel that - from the glitter in our eyes to the care we take for you. We would like to share our passion with you and let you experience the fascination.

Our raft is located at Kastanienallee 22c, directly at the marina in Potsdam West. Easily accessible by public transport, you can spend your evening doing sports on the water and then enjoy the last rays of sunshine on the raft roof.

THE SUP TRIP TEAM

We love what we do... because "if you want to inspire people about something, then be the enthusiasm yourself"! We'll get you hooked - a committed and equally passionate team that has excellent professional training spreads the SUP virus and a special way of life. Your success and fun is what drives us.

DON'T TALK, DO IT!

Martin's paddling story began by chance in 2012. He had never held a paddle before, but was immediately infected with the SUP virus. Six months later he founded a school, more for fun and to bring people closer to the fascinating connection between exercise and mental relaxation.

Martin is actually an engineer. However, his passion is working with people, so he prefers to use

his analytical skills to improve his customers' performance and technology. The growth he ignites in them is his motivation. He now has more than 12 years of experience in the personality development of children and young people, as well as as a trainer in various sports. He focuses on mental strength and the connection between body and mind. He has been training ambitious SUP kids and teenagers in Potsdam since 2018. The Havel Ra-

cers (photo above), as they formed as a permanent team in 2019, have since been able to claim several German championship titles.

POSITIVE ENERGY!

More actions than words, that is his maxim. Vitality, energy and awareness are his core values. He does nothing without passion and creativity that always challenges the status quo and always radiates with positive energy.

Martin, known to friends and in the scene as Teichi, has been successfully taking part in SUP races since 2017. 2019 was his most successful SUP year to date. Teichi became overall winner at the Hamburg championship and at the SUP Cup Berlin Brandenburg, vice German champion in the SUP Technical Race Ocean on Fehmarn and achieved an excellent 20th place in the long-distance race at the ICF World Championship in China.

Portrait: Susanne Lier, SUP Race Professional & Coach

EVERY DAY IN THE WATER IS A GOOD DAY!

FOLLOWED THE DREAMS

I am very lucky to have a great family and friends who support me in all my projects. I was born in a nice small town in East Germany. My parents and family supported me from an early age in following my dreams. It's not always easy being far away from them,

but Switzerland and Fuerteventura are now also places I call home.

MY PASSION

I have met great people in the last few years and SUP has changed my entire life. My passion is teaching, coaching and promoting SUP.

In 2019 I became a mother to my daughter Vaimiti and she is definitely the center of my world. Being a mom, an entrepreneur and an athlete isn't always easy, but it's worth it. It motivates me to train and be the best paddler and person I can be for them too.

GROW TOGETHER

In my coaching and training camps I share my experiences with other paddlers. We grow and learn better together.

SUP TECHNIQUE AND RACE COACHING

WATERMEN PERFORMANCE CENTER

The Watermen Performance Center is a collaboration of passionate athletes and coaches to create a place where amateurs and athletes enjoy the best place for training in various sports on the beautiful island of Fuerteventura. Our center offers great material in various water sports from SUP to Outrigger and more. We can organize upon request special training weeks or all kinds of services to make your stay amazing as possible to design.

Portrait: Anja von Behr, SUP & Yoga Instructor

WATERLOVE & YOGALOVE

I've been doing yoga for 20 years, so it was only the logical consequence to move it to the water after I tried it for the first time. Both water and yoga are said to have a certain "healing" potential: a double effect.

For me, this relatively new form of yoga is the best combination of deep muscle and core training, becoming one with nature and finding inner and outer balance. The sore muscles afterwards always tell you that you have done something good for your body.

A FLOATING YOGA STUDIO

SUP yoga is easier than you think when you have a SUP yoga teacher who can safely guide you into the yoga poses on the stand up paddle board. My yoga program is tailored precisely to the wobbly yoga board, special SUP asanas let you stay up and keep your balance. Your deep muscles work more effectively than on the floor in an indoor yoga studio. Take your yoga practice to the next level! But you still have to ex-

pect a wet bottom. But that's the beauty of outdoor training on the element of water.

I'LL GET YOU IN SHAPE!

Each individual has to overcome personal hurdles. How quickly we reach the finish doesn't matter.

All that matters is everything, every day admit. Do you face the manufacturing challenge? Be there!

INDIVIDUAL TRAINING

Because every person follows their own rhythm.

NUTRITIONAL ADVICE

To give your body only the best.

SUP FITNESS

In summer you have the unique opportunity to improve your fitness with a dose of action on the water in addition to the normal courses on land.

MENTAL TRAINING

You're at a point in your life where you just can't move forward. Or you have a big project coming up and you want to grow beyond yourself. You're in a relationship but you're unhappy. I can help you!

Scan here to go to my homepage with all the information >

WATER SPORTS ARE MY

A short sequence from a TV advertisement in the late 1980s stuck with me: a young couple sat on the runner of a catamaran and sailed into the sunset. A dream. My dream.

Unfortunately, I didn't have access to water sports either in my childhood or in my youth. Something like that wasn't really on the agenda for school and recreational sports. Only when the wall came down did I use the new opportunities to catch up on everything and fulfill my dreams.

With the first training salary in 1990 I got a catamaran license. And after a short time I bought windsurfing equipment and was now much more flexible in choosing the area with less material. After successfully completing my studies as a trained designer, I became interested in fluid mechanics and design in shipbuilding. I got this love of water from my grandfather. He was a sailor and told me a lot about the sea and the Masurian lakes.

At the end of the nineties I noticed the first kite surfers. I was thrilled because now the material became even more compact and for me this was the start of a kitesurfing passion that has now lasted more than 20 years.

In 2006 I saw the first pictures of surfers paddling while standing. Stand up paddling was born. I knew immediately that this would be a new trend and a perfect addition for water sports enthusiasts. Surf in the wind and paddle in the calm. Brilliant.

So in 2010 I decided to open the first SUP station on the Elbe. From then on I gave courses and

worked as a tour guide. So you can say that I have accompanied the SUP business in Germany from the beginning and helped shape it to a certain extent.

I quickly made a name for myself as a good salesman and ended up working for many well-known surf brands.

In 2013 I took part in the SUP World Cup in Hamburg and was thrilled to see how big the SUP scene already was. So in 2014 I decided to create my first SUP collection. At that time it consisted of 3 boards and 2 paddles. The demand for my products grew constantly. My goal was - and still is - to make the best inflatable SUP boards. All GTS boards are extensively tested for material and riding characteristics. Only when everything is perfect do I offer them to my customers.

In 2017 I had the idea that SUP also has potential in saving people. I had developed two special boards for the DLRG sea rescuers, which have since become the standard in water rescue. The German water rescue service and the Bavarian Red Cross are also among our customers.

I can say with complete confidence that I am happy with what I do. And thanks to my team at GTSports, we will continue to create great and innovative products in this area.

Maybe we'll see each other sometime. On the water, in the showroom on Eiswerder Island in Berlin. Or on one of my Amazon tours? I would be happy.

Thomas and surf legend Robby Naish

It all started with sailing

PASSION

GTS: Our SUP board collection

HIGH QUALITY MEETS PERFORMANCE

All of our inflatable boards are made in DOUBLE LAYER construction (2 layers of PVC fabric). And since the materials are thermally bonded together, we can completely avoid the use of adhesives in production. Not only is it lighter and more durable, it is also better for our environment.

We also use the most densely woven fabric (X-Cross Drop Stitch) available anywhere with 25,500 threads per m² for our boards.

This is how our boards maintain their GTS-typical strength and surprisingly light weight.

RESCUE BOARDS

GTS *CUSTOM*
BY GRANDTOURSPORTS

GTS is Europe's largest manufacturer of water rescue SUP boards. The German Life Saving Society DLRG, the water rescue service of the German Red Cross DRK and the Bavarian Red Cross BRK have been relying on the certified and authorized SUP expertise of GTS for years.

We also manufacture paddles and accessories according to individual requirements. This also includes a full service: taking over the design, material selection and all agreements with the producer. In addition, monitoring production and quality assurance. The finished product is then delivered directly to your home.

SEAL 10.5 AND MALIBU 12.0 RESCUE / DLRG / DRK-WW EDITION

On our rescue boards, the SEAL 10.5 and the MALIBU 12.0 were adapted to the customer's corporate design, and the rear of the MALIBU was also slightly widened to improve the ability to pick people up from the water.

GTS: Our paddle collection

LIGHT, STIFF AND UNCOMPROMISINGLY

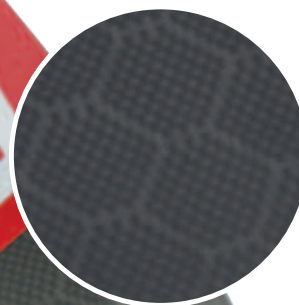

Our paddles are characterized by high-quality materials and state-of-the-art components. And they guarantee lightness and optimal handling. Regardless of whether you are having a relaxing tour on a lake or an exciting ride in the waves.

EVERYTHING ELSE YOU NEED

With the GTS accessories you can optimally supplement, maintain and transport your equipment. Or just look good! The best materials and well thought-out designs ensure that you don't have to worry about your material.

FAST, AGILE, STRAIGHT AHEAD

No matter whether flat water, seagrass, racing or touring conditions... our fins are up to any challenge. Light and stiff, maneuverable and track stable.

AIR THAT YOU NEED

Our double-stroke pumps are available in single-piston and double-piston versions. Both have a built-in pressure gauge and are of course supplied with a hose set.

CLEAN AND CARE SET

MAGIC BOARD ECO CLEAN and MAGIC BOARD ECO CARE are our recommendations for cleaning and caring for your SUP board. The cleaning and care products are super effective and environmentally friendly and biodegradable. So that you can enjoy your board even longer! Both "Made in Germany", of course.

Scan here for special set price and more information:

ALWAYS STAY DRY

These dry bags are your indispensable touring companion. Clothes, money, cell phones... in short: everything that shouldn't get wet is safely stored here. Available with 10 liters and with 20 liters capacity.

SECURE CONNECTION

The GTS Safety Leash ensures safety! Not just on shallow water, but also on the open sea. Connect to your SUP so you don't lose it if you fall and can quickly pull yourself back onto your board.

PADDLE-PROTECTION

The perfect way to protect your paddle from damage during transport and store it safely. This bag is suitable for all 3-piece paddles. Includes practical assembly tool.

PADDLING FOR PASSION

Show that stand-up paddling is your passion. The gray-mottled shirt with an orange/blue print perfectly presents your lifestyle. The shirt is made of 100% cotton and produced in Germany. For ladies (XS-L) with a round neck and for gentlemen (M-XXL) with a V-neck.

GT TEST-CENTER

SUP RENTAL & TESTCENTER

In our rental & test station we have more than 40 high-quality SUP boards and paddles ready for you. There are also the popular XXL boards, perfect for friends and family, and our yoga island with 8 jetties. If you wish, you can organize children's birthdays, yoga retreats, bachelor parties or SUP team buildings here. Just talk to us.

Of course, there are also interesting tour suggestions for the waters around our island of Eiswerder, the Oberhavel and Unterhavel/Wannsee.

Our SUP station is ideal for beginners, recreational athletes and families - but we also have the right offer for advanced users. Near the city of Berlin, on the island of Eiswerder, our station is located in the historic walls of an old fireworks and ammunition factory - just a few meters from the banks of the Havel.
